OLMIX :	<p>The privileged partner of farmers for the agro-ecological transition</p> <p>The Group is developing an international ecosystem of partners - farmers, integrators and distributors - to grow plants and raise animals in an agro-ecological transition project. We provide natural solutions for farmers to improve plant health and nutrition and for breeders to improve animal health and welfare.</p> <p>Algae are an essential raw material from which, through various stages of innovation and associated with clays and trace elements, Olmix develops concrete solutions for the global agricultural transition towards better practices based on products recognized for their effectiveness, scientifically demonstrated. Those practices aim at producing with a more respectful and positive impact on the environment, using less synthetic chemicals while having the capacity to feed the world population and ensure decent living conditions for farmers and breeders. Through our range of innovative products, both in the form of finished products and ingredients, and with the collaboration of distributors and integrators, we demonstrate that it is possible to reconcile economic and environmental performance in agriculture.</p> <p>Founded in 1995, Olmix employs 671 people and achieves a turnover of 110M € in 2020. The commercial structure of Olmix is based on 36 subsidiaries and 14 production sites covering, with export activities, more than 100 countries on five continents.</p>
